

MODEL: NH-1200LR-I STRAIGHT LINEAR FUSING PRESS MACHINE

NiSHO®
APPAREL MACHINERY

Features:

1. The seamless belt is adopted as standard and prolongs the belt used life.
2. The big diameter pressure roller, ensure balanced pressure.
3. The air pressure prevents puckering.
4. The heating plates lifting device can adjusted maximum 5mm height correspond any materials.
5. Adopt winding-type cleaning rod, equipped with cooling fan device as standard at the exit.

Specification	: NH-1200LR-I
Power Supply	: 3P-380V
Pated Output (Heater)	: 18.9KW
Pated Output (Motor)	: 715W
Fusing Width	: 1200mm
Belt Speed (Max)	: 14m/min
Heating Time	: 6.5 - 31sec
Pressure (Max)	: 49N/cm(5.0kgf/cm)
Temperature(Max)	: 195°C
Dimension (L x W x Hmm)	: 3650 x 1680 x 1250
Weight	: 1100Kg
