

## Automatic Tape cutter - the mighty purpose tool

Designed to cut all sorts of tapes, laces, ribbon, elastics during sewing and most importantly it does not disrupt the sewing process.

It used air compressor to cut the materials (saves electricity) and is activated with a knee switch which had designed ergonomically to ensure comfort and does not interfere the normal sewing movement.

It is also designed with an integrated blowout device so that worker need not have to use their fingers to remove the wastes from cutting (safety).

The sewer can cut either the front or back of the tape.

It is able to cut precisely by sewer judgment, thus reducing the amount of tape wastage.

The cutting width can range from 50mm to 80mm (optional if needed).

Easy attachment to all flat bed sewing machines, without disrupting the sewing process.

### Parts As Following :

Tape cutter SWA-1102-50-POZ straight lower knife - cutting width 50mm with blowing air integrated in finger guard

Knee switch SWKH-0296-5/2

1 x soft touch treadle rod valve with air regulator for air nozzle integrated in finger guard.  
Material flow can be adjusted when material is passing through the cutter.

Air Filter-regulator with Y-joint 2 (6mm diameter) to connect knee switch SWKH-0296 5-2 and treadle rod valve.

Air tube diameter 6mm /4mm (4 meter)

Air tube diameter 4mm / 2mm (2 meter)

screw set to install knee switch SWKH-0296 and Cutter SWA-1102-50

fabric tube with connector and 2 hose clamps to connect from customer air supply to Filter regulator (2 meter)
